Director's Notes

Dear Alaskan,

In 2011, the division strived to continue improving the public experience and focused on achieving our core mission: timely payment of dividends to eligible Alaskans. More cases were reviewed in 2011 than had been the year before, resulting in fewer applications pending an eligibility decision following the October payment.

As part of our annual process, the division obtains and matches information from multiple agencies. The Social Security Administration, United States Postal Service, Alaska Division of Elections, and other key agencies provide information that can change the status of an application. In 2011 we added a media campaign during the month of August to remind Alaskans to check their application status in sufficient time to resolve any issue that might delay payment.

To increase our effectiveness in response to incoming calls we implemented new communication systems management software that includes an intelligent incoming call queue, smart routing, and call tracking. The new system created efficiency by routing calls to an available technician, whether in Anchorage, Fairbanks or Juneau. The result has been an increase in overall calls answered and dramatically reduced hold times. In the future this new software will allow us to better manage incoming faxes and emails as well.

We continually look for ways to identify fraudulent applications ensuring that only eligible Alaskans receive dividends. In 2011 the division required a physical address to be provided with the application in order for a dividend to be issued. The addition of physical address created new audit opportunities and is expected to reduce fraudulently filed applications.

Overall, the division continued to provide excellent customer service while making gains in efficiency thanks to dedicated staff and management in all areas.

Regards,

Deborah M. Bitney
Director

Annual PFD Processing Cycle

The Permanent Fund Dividend Division's (PFDD) yearly cycle starts January 1 when the application period opens. Alaskans may submit an electronic or paper application for a Permanent Fund Dividend during the filing period, January 1 to March 31. Currently, the busiest times of the filing period are the month of January and the last two weeks of March, at the conclusion of the PFD filing season.

Applications received electronically are uploaded and electronically evaluated. Applications, supporting documentation and signature pages received on paper are scanned and keyed into the Dividend Application Information System (DAIS) and then electronically evaluated.

Making applicant eligibility determinations begins as soon as applications are received by the division. Applications flagged for further review by DAIS are assigned to eligibility technicians for evaluation primarily in one or more of the following areas: establishing residency, breaking Alaska residency ties, being absent from Alaska, and/or having the intent to remain in or return to Alaska. Guided by State of Alaska Statutes and PFD Regulations, eligibility technicians use current or prior year applicant information, if needed, and contact the applicant for additional information in order to make an eligibility determination. Many cases can be resolved without contacting the applicant. The current goal of the PFDD is to complete eligibility determinations by the first scheduled payment date, which is typically during the first two weeks of October.

During May, a list of applicants and their Social Security numbers are submitted to the Internal Revenue Service for TIN (Taxpayer Identification Number) matching. Those applicants whose information on file with the PFDD does not match the information on file with the IRS are flagged. These applicants have the opportunity to correct their information during the summer months. Those applicants that do not correct their information will be subject to IRS withholding when their PFD is issued.

In July, the Permanent Fund Corporation (APFC) transfers dividend funds to the PFDD that will be available for the PFD distribution. The PFDD calculates the dividend amount and the governor announces the amount in late September. Also in July, the division's data processing and payment teams confirm applicant supplied direct deposit information through our approved financial institutions in a process called the "pre-note". This process allows the division to verify account information accuracy and successfully process the highest percentage of requested direct deposits in the Fall.

The division now pays all eligible Alaskans on the first scheduled payment date of the year regardless if they select direct deposit or check. Prior to the 2010 dividend, direct deposit payments were distributed two weeks earlier than checks. Mid-September through the end of October is considered payment season for the division and is a busy time for public contact. During this time more of our eligibility technicians are assigned to payment support by phone, in person or via email.

During late November and early December the division focuses on finishing the remaining work of eligibility determination, if any, as well as preparations for the next filing season and training. It is during this time that the division often sees a rise in appeals of denied applications. Applicants that disagree with an eligibility determination have thirty days from the denial decision date to file an appeal. Appeals are worked on a year round basis in a first come, first served manner.

Throughout the year the Department of Revenue's Criminal Investigation Unit investigates hundreds of applications for potential PFD fraud based on tips from the public and information received from federal, state, and municipal agencies. Additionally, the division conducts focused audits and investigates information that is obtained through the division's internal process, including anomalies noted in processing applications.

The PFDD has made great strides in applicant data processing as well as bringing communication technology, such as the website and phone systems, current with industry standards. In 2011 the division implemented a new Virtual Call Center that allows for better handling, tracking, and recording of incoming calls. This helps with quality control and fraud prevention, and will offer additional benefits of tracking all forms of division communication in the future.

Prior-Year Dividend Payments Made in 2011

Prior year dividends are issued in 2011 for the following reasons:

- 2010 dividend applications were still in review or appeal at the close of 2010
- Prior year 18-year-old filers. Alaska Statute 43.23.055 authorizes individuals who hadn't received a dividend when they were a child to apply for that dividend when they turn 18 or become emancipated. These applicants must meet eligibility requirements and apply for the prior-year dividend within two years of their 18th birthday.
- Disabled adults and estates have an extended filing date of one year later than the original application deadline.

* The NCOA (National Change of Address) Audit was created for Dividend Year 2010. The USPS reports information to us on current applicants who have submitted a change of address that does not match the PFD address on file. This data is used largely to keep in contact with applicants who move after submitting an application. This same information also triggers an audit on individuals who may not have been eligible when they applied.

University of Alaska College Savings Plan Contributions

In 1990, legislation establishing the Alaska Education Trust Fund (AS 14.40.807) and authorizing an allowance for applicants to contribute 50% of their dividend to the fund was passed . In 1991, the name of the fund was changed to the Advance College Tuition (ACT) Payment Fund. The ACT option first appeared on 1991 dividend applications.

In fall 2001, the University of Alaska developed the UA College Savings Plan program as the main program for which contributions can be made toward advanced college tuition costs. The UA College Savings Plan provides various investment strategies to individuals making contributions. Additional information regarding the plan can be found at <http://www.uacollegesavings.com>.

Charitable Contributions Summary - Pick.Click.Give

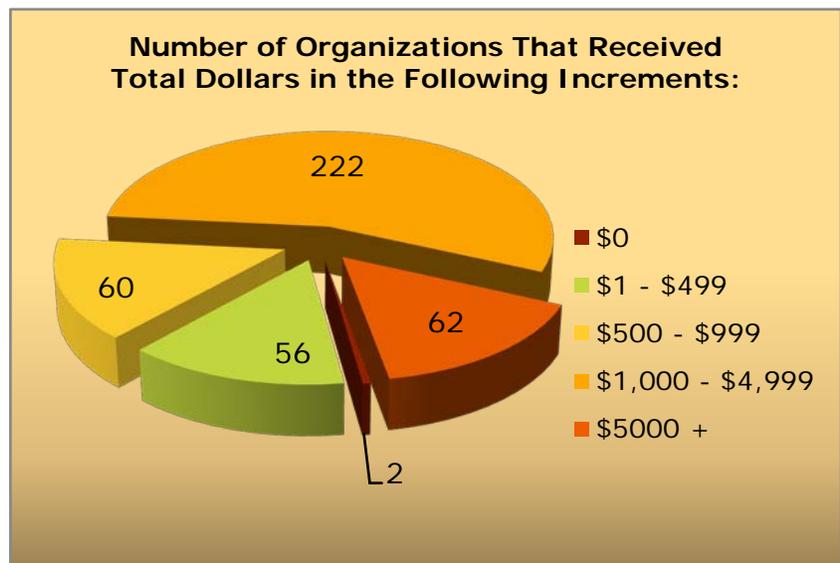

In 2009, the PFDD implemented a three-year charitable giving program, Pick.Click.Give., authorized by the Alaska legislature per statute AS 43.23.062. In 2012 it becomes a permanent addition to the PFD online application process.

Initially funded by the Rasmuson Foundation, and managed by United Way and the Foraker Group, the program allows an applicant to electronically pledge all or a portion of their dividend to an eligible Alaskan organization.

Applicants are allowed to withdraw their pledges up to a specified date, and pledge amounts may be reduced by other garnishments or assignment that take priority. An ineligible applicant pledge would also not be paid. Hence, the actual contributed amount is generally lower than the amounts pledged during the application period.
