TO ALASKANS

To Alaskans

MISSION STATEMENT

To administer the Permanent Fund Dividend program assuring that: all eligible Alaskans receive timely dividends; fraud is prosecuted; and all internal and external stakeholders are treated with respect.

NOTE FROM THE DIRECTOR

Dear Alaskan,

2013 was my first full year as Director of this great Division, and I'm pleased to say that it was one of our most productive ever. Although total applications dropped slightly over 2012, we worked at clearing process bottlenecks that resulted in the highest percentage ever of cases reviewed by September 15th. That date is significant because we typically lock in the final numbers for the dividend calculation at that point in time.

Applicant security and fraud prevention were both big themes for the division in 2013. The Department of Revenue's Criminal Investigation Unit (CIU) stepped up their efforts to flush out fraudulent Permanent Fund Dividend (PFD) activity. The Division also increased electronic security measures on our website to better protect the personal information of applicants who prefer to do business with the division online.

In the age of electronic communication and social media, we also found that we must embrace newer technologies to ensure we are reaching the public via both traditional and emerging communication methods. To that end we started our own Division Facebook page as a method to better spread the word on what we're doing here at the PFD Division.

The dividend amount was an even \$900.00 in 2013, and some were curious how it landed so cleanly on that number. I can tell you the Division has been rounding to a whole dollar when calculating the dividend for about half a decade, so it was just a matter of time before we hit right on a hundred number.

OPERATING HIGHLIGHTS

- Approximately 670,000 applications filed
- 83% of all applicants filed online – the highest percentage to date
- 97% of all eligibility cases created were reviewed with at least one contact by September 15, 2013
- Driver's license requirement added online as additional security to access myPFDInfo
- Created and implemented a streamlined training program that prepares technicians to work in two months

LOOKING AHEAD

The focus for our Division will continue to be on technology, and how we can use it to make the applicant experience better. Our plan is to implement an email and fax queue that uses single email addresses and phone numbers for the receipt of all correspondence, which in turn, is smartly routed to the appropriate person to handle the issue. We also want to enable a web chat feature online similar to what large banks and retailers use to communicate with customers. These innovations will shrink wait times, increase response rates, and create more options for the public to reach us.

On behalf of the Division staff and management team, we look forward to serving you and welcome your suggestions.

Dan DeBartolo
PFD Division Director

DIVIDEND SUMMARY

Dividend Summary

The 2013 Permanent Fund Dividend (PFD) amount was **\$900.00** for each of the 631,470 qualified applicants, totaling the distribution of \$568,048,767.00. (See page 19 for more payment details.)

DIVIDEND OVERVIEW

During the 2013 calendar year, the Division received 672,951 total PFD applications, of which 668,362 were valid for the 2013 dividend. This represents less than a one percent decrease of valid applications from the previous dividend year.

A valid application is one that is complete for a single individual and timely filed. Not all valid applications are determined to be eligible for payment of a dividend. (Please see page 13 for more details of this determination process.)

As of the October 3rd payment date, 593,052 applications were determined eligible and paid.

Total applications received and processed by the division in Calendar year 2013

Invalid, duplicate, or withdrawn applications	672,951
Valid Applications for prior dividend years	(3,629)
Applications submitted solely to establish Sponsor eligibility	(784)

DIVIDEND SUMMARY

DIVIDEND CALCULATION

Annually the dividend amount is calculated and announced mid-September, based on an estimated number of applicants. An estimate is used because, as of the dividend calculation date, eligibility determinations have not been completed for all applications. A number of these applications will be determined as payable after continued processing. Also, some applicants have extended filing due dates until March 31, 2014, such as for estate and disabled applications.

The 2013 dividend amount of \$900.00 was calculated using an estimated number of total eligible applicants.

APPLICANT FILING ACTIVITY

REPORTED ABSENCES

Dividend applicants are required to disclose to the Division all absences from the State of Alaska that exceed ninety days during the qualifying year. The qualifying year for the 2013 Dividend was calendar year 2012.

Applicants can claim more than one type of absence, but reported absences cannot overlap each other. Therefore, each day of absence can be reported under only one absence type.

Some absence types only apply to ADULT applicants, others only to CHILDREN, and others to either group.

Highlights:

Top 5 Reasons Why Alaskans Were Absent During the Qualifying Year (2012):

- Vacation -- 10,222
- Accompanying Another Eligible Resident (on their own allowable absence) -- 8,034
- Other Reasons -- 7,545
- Full-time College Attendance -- 7,543
- U.S. Armed Forces Active Duty -- 7,144

DIVISION PROCESSING ACTIVITY

ELIGIBILITY REVIEW

All applications received by the Division are processed, starting as soon as they are received. Each application is evaluated for payment eligibility according to the requirements of the Permanent Fund Dividend program, as given in State of Alaska statutes and PFD regulations.

Division Eligibility Technicians use information available on current and prior years' applications, or obtained through contact with the applicant and other designated parties, in order to make an eligibility determination. Many cases are determined without additional applicant contact.

All applications that satisfy the eligibility requirements are processed for payment, beginning the first Thursday of October each year, and on a monthly cycle thereafter. In 2013, payment began on October 3rd.

Note:

- Total applications shown below include applications for dividends prior to that for year 2013.
- "Undetermined" applications are those still being reviewed by the Division, as of December 31, 2013.

Highlights:

Almost **95%** of the received applications for 2013 had been determined eligible for payment as of December 31, 2013.

Audits

The Permanent Fund Dividend Division takes steps to identify and minimize fraudulent activity in relation to the dividend program, in accordance with statutory mandate and the Division mission. The following *audits* represent a sampling of applications that have been scrutinized and evaluated in addition to standard eligibility review.

In accordance with state regulations, the Division will deny an application if it determines that an individual has intentionally provided deceptive information, such as failing to disclose a reportable absence to the Division.

Highlights:

Dividend dollars NOT paid to applicants due to audit identification of ineligibility: **\$1,509,300.00**

OUT-OF-STATE POSTMARK AUDIT

The Division contacts applicants for additional information if the application postmark indicates there may be an inconsistency in the applicant's indicated presence, residency, or mailing address in Alaska at the time of filing.

APPEALS

Informal Appeals

An ineligible individual will be issued a denial letter explaining the eligibility determination. The individual has thirty days from the date of the denial letter to file a Request for Informal Appeal form, explaining why either the facts are incorrect or the law was applied incorrectly, with supporting evidence. The applicant must provide a twenty-five dollar appeal fee or request a waiver of the fee based on the federal poverty guidelines.

DIVISION PROCESSING ACTIVITY

Formal Appeals

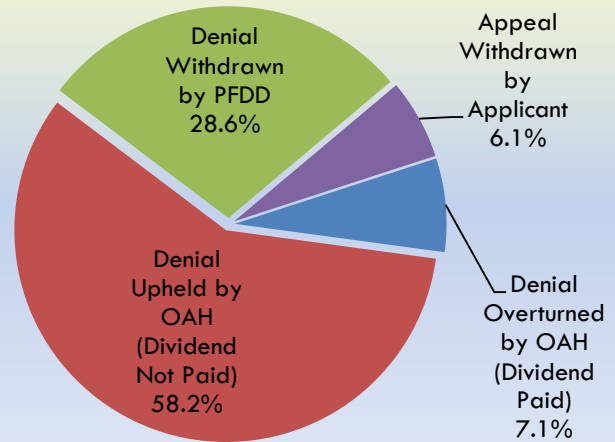

Upon receiving an Informal Appeal request, Division Appeals Specialists review the original application with all supporting material. A letter will be sent to the applicant detailing the Informal Appeal Decision and reasoning.

If the individual does not concur with the Division's decision, he or she has thirty days from the date of the decision letter to file a Request for Formal Hearing Appeal form, explaining and supporting their position.

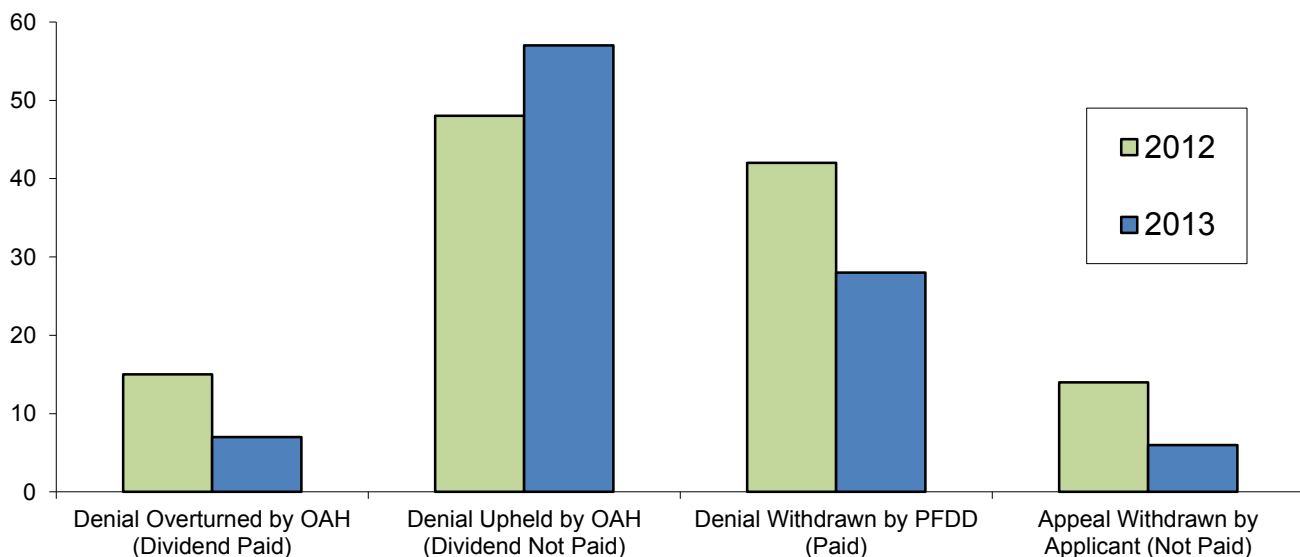

The appeal will be heard by an Administrative Law Judge with the Office of Administrative Hearings (OAH).

There is no additional fee to file the Formal Hearing appeal. However, an Informal Appeal Decision must be issued before an individual can file a Formal Hearing appeal.

GARNISHMENTS AND ASSIGNMENTS

Garnishments

Under state statutes, up to eighty percent of a dividend may be garnisheed, unless by a governmental agency, which may garnishee up to one-hundred percent of a dividend. Any PFD amount in excess of the total amount garnisheed is paid to the applicant. These garnishments will pay off debts that are owed to a variety of agencies across the state. There is a priority order for which kind of agency will receive first option to levy garnishments. Within that priority structure, they are ordered based on the date and time stamp of submission. It is, in essence, a “first come, first serve” system within the priority order. Garnishment requests come to PFD directly from an agency, such as a court system or process server.

Assignments

State statutes permit applicants to assign their dividend to a government agency or regional housing authority created under Alaska Statute 18.55.996. Any amount in excess of liability due the assigned agency is paid to the applicant.

Assignments tend to be done on a “voluntary” basis where an individual wishes to utilize their upcoming PFD for a payment to a federal, state, municipal governmental agency, or to a court. Many of these assignments end up going towards housing payments for federal housing programs. Because these are assigned prior to each PFD, it is the agency’s responsibility to either set an amount that they will accept for the upcoming PFD, or to have individual assign percentages of their PFD. Individuals may assign up to one-hundred percent of their expected PFD, per AS 43.23.069(b).

Note: * A zero value in the “Amount Submitted” column indicates deductions requested as a percentage of the dividend balance, rather than a fixed amount.

PAYMENTS

The first dividend payment disbursement for the current dividend year begins on the first Thursday in October and continues on a monthly cycle thereafter. In 2013, payment began on October 3rd. Applicants that selected the payment method of direct deposit or electronic payment have their dividends initially sent to financial institutions for deposit into checking or savings accounts. Deposit returns from financial institutions are paid via warrant in subsequent payment runs. Warrants, more commonly known as checks, are mailed to all applicants that opted not to select direct deposit.

Applicants receive a partial direct deposit or payment when their dividend is garnisheed or assigned, and the total amount garnisheed or assigned is less than the dividend amount. Applicants may assign up to 100% of their dividend, but only to federal, state or municipal agencies.

Note:

- Payment numbers below reflect payments made through December 31, 2013 only on 2013 Dividends. (See page 20 for payments of prior-year dividends.)
- The total amounts shown below include funds distributed to applicants, or to agencies through garnishments, assignments, and charitable contributions.
- The total amounts shown below do NOT include balances due to applicants that have not yet received the full dividend amount. As of December 31st, this total balance is \$274,233.00).

Highlights:

508,106 direct deposits settled October 3, 2013 for a total of **\$440,372,709.09**

87,707 warrants issued October 3, 2013 for a total of **\$72,915,684.32**

Applications Paid in 2013 for Prior Year Dividends

Prior year dividends may have been issued during the 2013 Dividend Year for any the following reasons:

- 2012 dividend-year applications that were still in review or appeal at the end of calendar year 2012.
- Eligible Prior Year Applications for 18-year-old filers. Under regulation 15 AAC 23.133, an individual who has reached majority or who is an emancipated minor may apply for a prior year dividend. An individual who qualifies must meet all eligibility requirements for the respective prior year(s) and must file before the individual reaches 20 years of age. See Alaska Statute 43.23.055(3).
- Estate Applications and Applications for Disabled Adults. These application types have an extended filing date of up to one year later than the filing deadline for the respective dividend year.

COLLECTIONS

The Division collects dividends from applicants who were paid and subsequently determined to be ineligible to receive the dividend. Applicants are assessed at a ten and one-half percent interest rate until the dividend is paid back.

In 2011, electronic garnishment error assessments increased the collections unit cases by 2,900 cases. The increase in collected funds is a result of collections from administrative levies on current payable year dividends.

CRIMINAL INVESTIGATIONS

The Department of Revenue Criminal Investigation Unit (CIU) is responsible for investigation of crimes against the Alaska Department of Revenue, including the Permanent Fund Dividend program. Currently, the CIU has two investigators assigned full-time to PFD investigations, who also receive part-time assistance from other CIU staff. CIU reviews all reports of fraud received regarding the PFD program as they are received. An investigation typically is opened where initial information such as a fraud tip is supported by additional information available from another source. This standard helps to ensure that erroneous information does not result in withholding of dividends from eligible applicants.

Note:

- Settlement received represents an administrative settlement accepted in lieu of prosecution.
- *Dividend Not Paid represents PFD's for which a defendant wrongly applied, but which ultimately were not paid due to the successful criminal prosecution. This number specifically does not include applications that were not paid solely due to the permanent ban on eligibility that applies after conviction of a PFD crime, but is only applications that were subject to the fraud.

DIVISION PROCESSING ACTIVITY

- **Statute of Limitations Loss represents funds for years that could not be charged under the statute of limitations, and were not included in a plea agreement for various reasons. When calculating the total amount subject to prosecution, we include every affected year, regardless of statute of limitations, because we frequently do require payment of all ill-gotten funds in the context of a plea agreement.
- The Assessment and Payments Denied section of this report was removed, because CIU no longer does eligibility denials and assessments. As of 2012 cases were remanded to PFD for eligibility determinations after the investigation completion.

BIRTHPLACE

An applicant's place of birth is NOT a direct criterion in determining eligibility for a Permanent Fund Dividend (though citizenship and residency might be.)

These statistics are provided by the Division for information purposes only. Additional details are available in Appendix A: Applicant Birth Places.

The overwhelming majority of applicants for the 2013 Dividend reported the **United States** as their country of birth, with Alaska-born residents making up almost **43%** of the total with **285,551** persons, followed by California 6.44%, Washington 4.67%, and Oregon 2.68%.

The largest foreign-country represented was the **Philippines**, with 8,779 reported applicants, or 1.31% of the year's total. Country-of-birth data was unavailable for **8.6%** of the 2013 Applicant population or 57,574 persons.

MAILING ADDRESS OVERVIEW

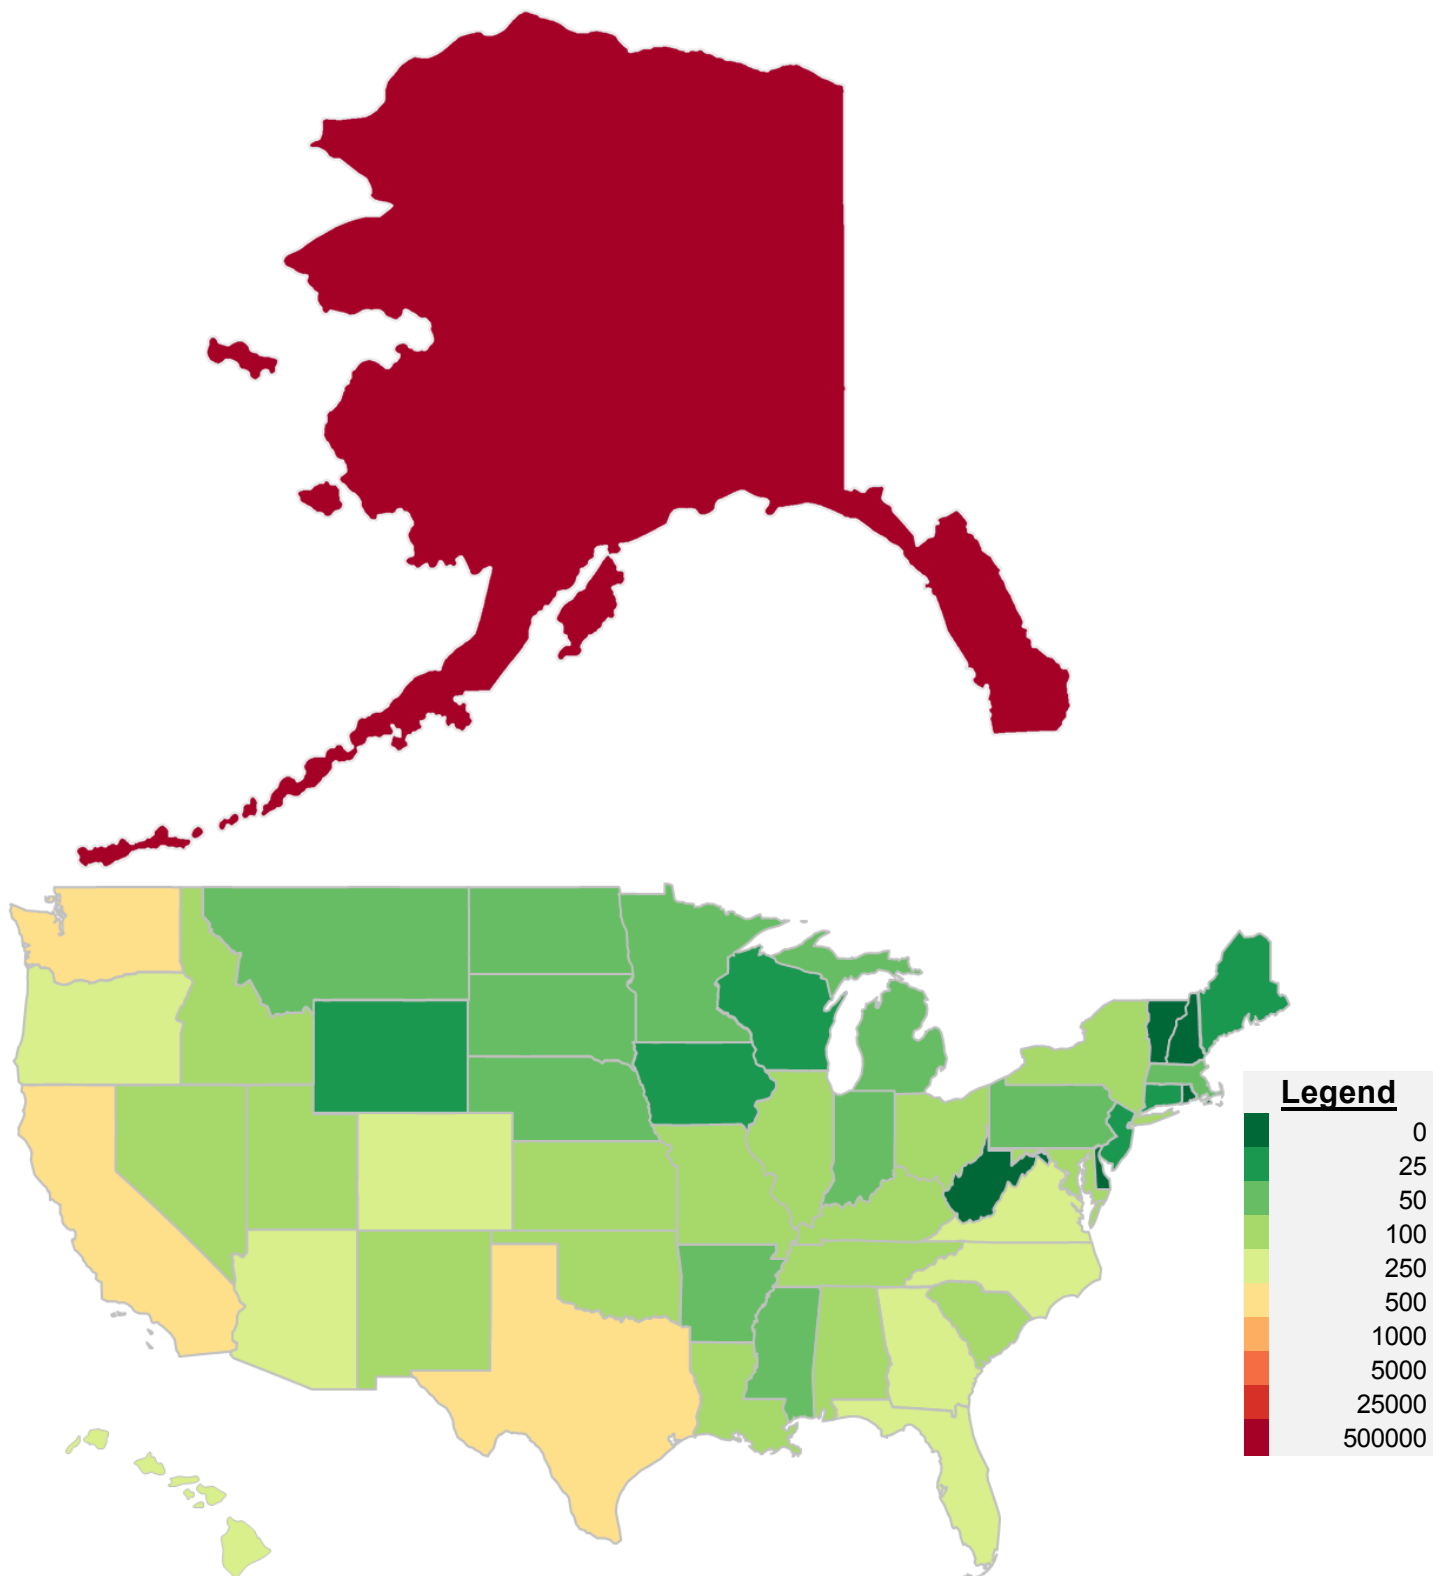

State regulations require persons applying for a Permanent Fund Dividend to provide the Division with current mailing and physical addresses, among other things.

VOLUNTARY PROGRAMS

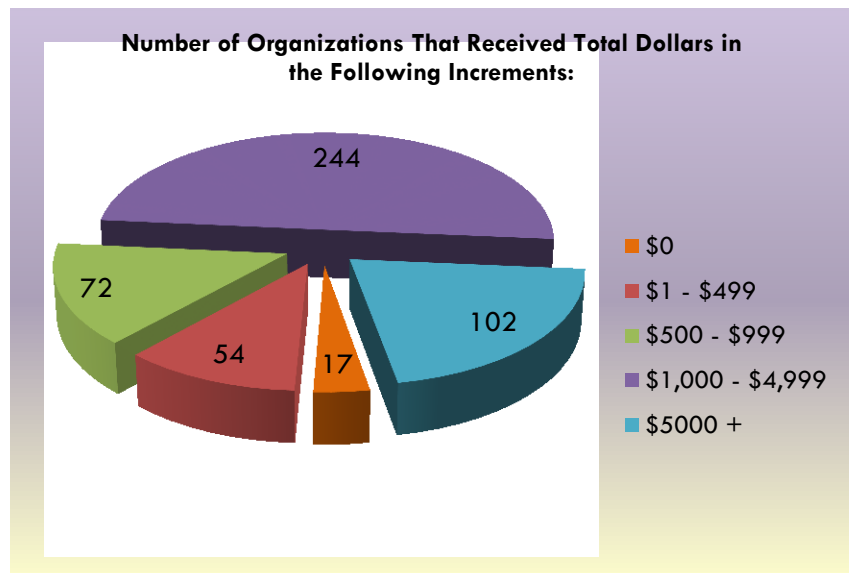

Voluntary Programs

PICK.CLICK.GIVE.

In 2009, the PFDD implemented a three-year charitable giving pilot program, Pick.Click.Give., authorized by the Alaska legislature per statute AS 43.23.062. In 2012 it became a permanent addition to the PFD online application process.

Initially funded by the Rasmuson Foundation and managed by United Way and the Foraker Group, the program allows an applicant to electronically pledge all or a portion of their dividend to eligible Alaskan nonprofit organizations. "The program goal is to increase individual charitable giving overall, along with increasing the number of new donors to nonprofit organizations." Additional information regarding the program can be found at www.pickclickgive.org.

Applicants are allowed to withdraw their pledges up to a specified date, and pledge amounts may be reduced by other garnishments or assignment that take priority. An ineligible applicant pledge would also not be paid. Hence, the actual contributed amount is generally lower than the amounts pledged during the application period.

Highlights:

Number of applicants who pledged: **26,124**
 Number of individual pledges to an organization: **41,872**

Number of eligible charitable organizations: **489**

Amount pledged vs amount paid

Total Dollars Pledged By Applicants	\$2,787,200.00
Pledges Withdrawn	(331,875.00)
Net Total Dollars Pledged	\$2,455,325.00
Total Dollars Paid to Organizations	\$2,235,854.64

Charitable Contributions Appeals

United Way of Anchorage as the Department of Revenue's "agent" determines if an organization is eligible or ineligible to be included in the charitable contribution list. If the organization is ineligible to be included in the charitable contribution list for the following year's Permanent Fund Dividend electronic application, the organization is issued a denial letter explaining the reasons they are not eligible. The organization has 15 days from the date of the denial letter to file an appeal explaining and supporting their position. Appeals for Inclusion in the PFD Charitable Contribution list on the PFD Electronic Application differ from other appeals as they go directly to formal hearing as "fast track" hearings. PFD Division Appeals Specialists prepare the case for a formal hearing and the case is heard by an Administrative Law Judge with the Office of Administrative Hearings (OAH.) United Way does not participate in the appeal hearing itself and does not participate in the appeal process. United Way only determines initial eligibility according to state law as the Department of Revenue's agent. There is no fee to file an appeal for Inclusion in the PFD Charitable Contribution list on the PFD Electronic Application.

VOLUNTARY PROGRAMS

UNIVERSITY OF ALASKA COLLEGE SAVINGS

In 1990, legislation establishing the Alaska Education Trust Fund (AS 14.40.807) and authorizing an allowance for applicants to contribute fifty percent of their dividend to the fund was passed. In 1991, the name of the fund was changed to the Advance College Tuition (ACT) Payment Fund. The ACT option first appeared on 1991 dividend applications.

In fall 2001, the University of Alaska developed the UA College Savings Plan program as the main program for which contributions can be made toward advanced college tuition costs. The UA College Savings Plan provides various investment strategies to individuals making contributions. Additional information regarding the plan can be found at www.uacollegesavings.com. Note:

- Applicants represent those who opted into the ACT program on their application and were paid a partial or full dividend.
- Total contributions represent actual dollars distributed to the College Savings Plan through December 31, 2013.

PERMANENT FUND DIVIDEND DIVISION HISTORY

Permanent Fund Dividend Division History

OPERATIONS ANNUAL CYCLE

The Permanent Fund Dividend Division's (PFDD) yearly cycle starts January 1, when the application period opens. Alaskans may submit an electronic or paper application for a Permanent Fund Dividend during the filing period, January 1 to March 31. Currently, the busiest times of the filing period are the month of January and the last two weeks of March, at the conclusion of the PFD filing season.

Applications received electronically are uploaded and electronically evaluated. Applications, supporting documentation and signature pages received on paper are scanned and keyed into the Dividend Application Information System (DAIS) and then electronically evaluated.

The process of determining applicant eligibility begins as soon as applications are received by the Division. Applications flagged for further review by DAIS are assigned to eligibility technicians for evaluation primarily in one or more of the following areas: establishing residency, breaking Alaska residency ties, being absent from Alaska, and/or having the intent to remain in or return to Alaska. Guided by State of Alaska Statutes and PFD Regulations, Eligibility Technicians use current or prior year applicant information, if needed, and contact the applicant for additional information in order to make an eligibility determination. Many cases can be resolved without contacting the applicant. The current goal of the PFDD is to complete eligibility determinations by the first scheduled payment date, which is typically during the first two weeks of October.

During May, a list of applicants and their Social Security numbers are submitted to the Internal Revenue Service for Taxpayer Identification Number (TIN) matching. Those applicants whose information on file with the PFDD does not match the information on file with the IRS are flagged. These applicants have the opportunity to correct their information during the summer months. Those applicants that do not correct their information will be subject to IRS withholding when their PFD is issued.

In July, the Alaska Permanent Fund Corporation (APFC) transfers dividend funds to the PFDD that will be available for the PFD distribution. The PFDD calculates the dividend amount and the governor announces the amount in late September. Also in July, the Division's data processing and payment teams confirm applicants supplied direct deposit information through our approved financial institutions in a process called the *pre-note*. This process allows the division to verify account information accuracy and successfully process the highest percentage of requested direct deposits in the Fall.

The Division now pays all eligible Alaskans on the first scheduled payment date of the year, regardless of the payment method selected (direct deposit or check). Prior to the 2010 dividend, direct deposit payments were distributed two weeks earlier than checks. Mid-September through the end of October is considered payment season for the Division and is a busy time for public contact. During this time more of our eligibility technicians are assigned to payment support by phone, in person or via email.

During late November and early December the Division focuses on finishing the remaining work of eligibility determination, if any, as well as preparations for the next filing season and training. It is during this time that the Division often sees a rise in appeals of denied applications. Applicants that disagree with an eligibility determination have thirty days from the denial decision date to file an appeal. Appeals are worked on a year round basis in a first come, first served manner. Throughout the year the Department of Revenue's Criminal Investigation Unit investigates hundreds of applications for potential PFD fraud based on tips from the public and information received from federal, state, and municipal agencies. Additionally, the Division conducts focused audits and investigates information that is obtained through the Division's internal processes, including anomalies noted in processing applications.

The PFDD has made great strides in applicant data processing as well as bringing communication technology, such as the website and phone systems, current with industry standards. In 2011 the Division implemented a new Virtual Call Center that allows for better handling, tracking, and recording of incoming calls. This helps with quality control and fraud prevention, and will offer additional benefits of tracking all forms of division communication in the future.

PERMANENT FUND DIVIDEND DIVISION HISTORY

2007

- Online payment history access for authorized agencies and individuals adopted.

2008

- One time resource rebate added to dividend. Payment timing moved up to September in response to high energy costs. New eligibility system rolled out.

2009

- The Charitable Contribution program named Pick.Click.Give. is launched. The online program allows an applicant to donate all or a portion of their dividend to charities of their choosing.

2010

- Community distribution centers are used for distributing paper applications for the first time. Postal delivery to every Alaskan mailbox is reduced to targeted mailings in light of over 75% of applicants filing online.

2013

- The Division publishes Facebook page to develop an additional interactive experience with Alaskans through social networking.

PERMANENT FUND DIVIDEND DIVISION HISTORY

FIVE YEAR DIVIDEND CALCULATION

The dividend amount is calculated annually, and has been historically announced in mid-September. The amount of the dividend is calculated by dividing the amount available for distribution from the Permanent Fund Corporation (PFC) earnings account by an estimated number of eligible applicants. The calculation is based on a statutory formula under Alaska Statute 43.23.025 and is required by law to be announced by October 1. Note:

- PFC statutory net income equals realized earnings excluding income from North Slope royalty case (State vs Amerada Hess.) "The formula is based on an average of the Fund's income over five years in order to produce a more stable flow of dividend amounts from year to year." (www.apfc.com)
- Dividend amounts are rounded to an even amount to result in an even half-amount for applicants who designate fifty percent of their dividend be contributed to the UA College Savings program (AS 14.40.807).

DIVIDEND APPLICATIONS AND PAYMENTS SINCE 1982

Dividend statistics are through December 31 of each respective year. Applications received are all valid applications received during the respective year, for that year's dividend only. Population statistics were obtained from the Alaska Department of Labor and Workforce Development 2013 population estimate as of July 1, 2013. The count of Dividends Paid and the value of Total Disbursed Amount includes dividends that may have been garnisheed or donated. The 2008 Dividend amount excludes the one-time \$1,200 addition of the 2008 Resource Rebate.

PERMANENT FUND DIVIDEND DIVISION HISTORY

Direct Deposits since 1993

- Beginning 1999, Permanent Fund Dividend Division implemented partial direct deposit. For 1993 through 1998, applicants qualified for direct deposit only if they received the full dividend amount.
- Applicants may not qualify for direct deposit because their bank account was closed or their direct deposit information was incomplete.
- Applicants may qualify for a direct deposit, but may not necessarily be paid through direct deposit.
- Beginning 2013, eligible applications filed by the Office of Public Advocacy were paid via direct deposit.
- Total Paid via Direct Deposit includes only 2013 Dividends, paid by Direct Deposit or a combination of Direct Deposit and another payment type.
